## Global action needed!

We invite you for the 2014 International Conference on Stillbirth, SIDS and Baby survival. We also encourage you to submit one or more abstracts on your work that are cutting edge or are novel investigations, programs or approaches.

## About the conference

**Date:** 18-21 September, 2014

**Location:** Royal Tropical Institute (KIT) Amsterdam, The Netherlands

**Topics:** Implementation of changes in health care, implementation of safe sleeping messages, the future of finding and preventing causes for stillbirth and SIDS, decreasing perinatal mortality, the next pregnancy, placental pathology, perinatal epidemiology, classifying SIDS, genetics and SIDS, insights in bereavement and effects for parents and professionals. The parent bereavement program will focus on support after the loss and education and care.

Preconference workshops on 18 September: preconference ISA workshops Placental Pathology, IMPROVE-workshop on stillbirth care, Epidemiology. Register your interest separately on our website.
